

Technical Data Sheet from Belvoir Rail Ltd

Air Purifier

Technical Information	
Voltage	24v (240v Ac Version Available)
Dimensions	Length = 205mm Width = 115mm Height = 70mm
Construction	Mild Steel powder coated Additional colours available upon request
Mounting Options	Can be fitted to Ceiling, Wall or Over Vent Additional mounting and supports brackets can be made to specification
Negative Ion Generation	20,000,000 pcs/cc
Ozone Generation	0-0.14 mg/h (very low)
Operation	Fault Monitored
Fan Voltage	24v
Fan Airflow	4 cfm (fully loaded to 9cfm = 6.66 - 14.8m ³ /h)
Current Draw	500mA (low)
Electrical Cable	Rail Approved Specification
Electrical Connectors	Application Dependent
Weight	0.8 kg
Ioniser Components meet EN 61373:2010, EN 501155:2007 & EN50121-3-2:2015
